

The Edith Borthwick School

School Improvement Plan 2024/25

Our key priorities this year are:

1. Curriculum development in Key Stage 3 and 4 - Engage, Explore and Challenge.
2. Mental Health and wellbeing - providing the tools for learners and staff to understand how to support their mental health needs and to develop resilience.
3. Universal offer – Occupational therapy is embedded within whole school regulation strategies.
4. Planning around school finances supports the school in meeting the needs of an increasingly complex cohort of learners.
5. The views of school stakeholders are gathered and fed into planning to drive progress.
